Subject: RE: Rabbits - Updates from Feb 20 2020

DOC 110

Hi all,

Here are some updates on rabbit feet!

- Tex # 101
 - Weight 08/09/18= 4.10 kg, 07/19/18 = 4.16 kg, 4/11/19= 4.18 kg, 5/6/19 = 4.16 kg, Weight 11/18/19= 4.20 kg, Weight 2/20/2020= 4.10 kg.
 - Suspect dental disease, will continue to monitor.
 - 5/19= Mild to moderate Pododermatitis- Left and right hind feet have alopecia on plantar surface and alopecia area around 6 mm at point of hock, Some mats inguinal
 - Mild pododermatitis
 - 9/26/19= Medium amount of fur, dirty feet, pencil sized areas of alopecia at both point of hocks and rectangular area alopecia adjacent
 - 11/22/19= Mild alopecia about size of pencil eraser, no scabs, both hind feet, with small rectangular areas on pedal surface of both hind feet
 - 02/20/2020= Mild pododermatitis, hocks with rectangular area of very mild alopecia bilaterally, left hind has small scab on pencil eraser size alopecia at point of hock, feet furry and clean
 - Recheck- early to mid- March
- Leo #102
 - Weight 08/09/18= 4.10 kg, weight 07/19/18= 4.22 kg, weight 4/12/19= 4.02 kg, weight 11/25/19= 4.02 kg, Weight 02/18/2020= 3.90 kg.
 - Mild pododermatitis
 - 5/23/19= Much cleaner. Both hind feet clean and furred, alopecia remains, no scabs
 - 9/26/19- well furred feet, clean, thin fur on left hind, Very mild pododermatitis
 - 11/25/19= Well furred on both feet, both feet clean, tiny spots of alopecia on points of hock only
 - 02/20/2020= Alopecia, very mild, rectangular shape near point of hock, both feet
 - Mats on left hip and near tail- clip next week
 - Concern re dental disease.
 - Recheck March- April 2020
- Jasper #104
 - Weight 08/09/18= 3.86 kg, weight 07/19/18 = 3.98 kg, weight 4/5/19 = 3.72 kg, Weight 3.66 kg, Weight 2/13/2020= 3.70 kg, 02/18/2020= 3.78 kg.
 - Mild pododermatitis,
 - 5/19= Fur on feet is clean and fluffy
 - Left hind alopecia about 3 mm diameter on point of hock
 - Right hind alopecia around 6 mm diameter at point of hock
 - 9/26/19= well furred clean feet, tiny alopecia area point of both hocks
 - 11/25/19= Very well furred, and clean, both feet, 1 small spot of alopecia on left hind foot
 - 02/13/2020= Both hind feet very clean and well furred, right hock small pencil eraser sized alopecia, barely visible
 - Recheck end March- end April

- Trixie #105
 - Weight 08/09/18= 4.90 kg, weight 07/19/18= 4.66 kg, weight 4/11/19= 4.92 kg, 11/22/19 weight=, Weight 2/13/2020= 4.80 kg, 2/18/2020= 4.78 kg.
 - Mild – moderate pododermatitis
 - 5/23/19= Mats at tail, clipped. Left hind foot- fur is clean but thin, 3 mm alopecia area, right hind foot- fairly clean fur, small scab at point of hock, alopecia area larger than pencil eraser
 - 9/26/19- left hind has small amount alopecia and small scab at point of hock, right hind clean, mild alopecia
 - 11/22/19= Left hind foot furred, no alopecia, right hind foot has pink area of alopecia, no scabs
 - 02/13/2020= Fur is thin over a rectangle area on R hock. Pencil eraser size alopecia at both hocks. Fur is clean. Few small mats near tail. Clip mats next week.
 - Recheck March- April 2020
- Daisy #108
 - Weight 08/09/18= 4.22 kg, weight 7/19/18= 4.28 kg, Weight 4/5/19= 4.04 kg, Weight 11/25/19= 3.74 kg, Weight 2/13/2020= 3.80 kg, Weight 2/18/2020= 3.80 kg.
 - Mild pododermatitis
 - Feet are clean and well furred, mild alopecia size of pencil eraser, no scabs, at point of hock
 - 11/25/19= Hind feet both well furred and clean, mild pink alopecia on both points of hocks
 - 2/13/2020= Hind feet both well furred and clean, mild pink alopecia both points of hocks, smaller than pencil eraser
 - Recheck in March- April
 - Monitor weight.
- Wyatt Earp # 109
 - Weight 4/5/19= 3.36 kg, Weight= 11/22/19= 3.62 kg, Weight 02/18/2020= 3.70 kg
 - Mild pododermatitis
 - 5/19- Both hind feet have 3- 5 mm diameter circular alopecia lesions at points of hock
 - No scabs
 - 9/26/19- Left hind foot fur is dirty, mild alopecia less than diameter of pencil eraser both sides
 - 11/22/19= Very dirty fur on both feet, few mats rear legs and tail
 - 02/20/2020= Well furred and clean both hind feet, slight alopecia only over rectangular area on both hocks, superficial mats on right lateral knee and foot, clip next week
 - Increase exercise and time in pen
 - 12/19/19- isoflurane and oxygen anesthesia for clipping mats on tail base and rear legs
 - Recheck April
- Doc Holliday # 110
 - Weight 4/5/19= 3.20 kg, weight 11/22/19= 3.5 kg, Weight 3/18/2020= 3.64 kg.
 - Nervous- unable to check feet previously.
 - Continue- work on socializing to handling and exam
 - 11/22/19= finally able to check his feet for the first time! Great job! Right hind foot slightly pink, but well furred
 - 02/20/2020- Well furred, brief look only, but doing well with exam! Good job!! Few mats on tail. May need to anesthetize to clip mats.
 - Recheck next week for mats and recheck feet March- April.
- Johnny Ringo #111
 - Weight 4/5/19= 3.32 kg, Weight 11/25/19= 3.54 kg, Weight 2/13/2020= 3.34 kg, Weight 2/18/2020= 3.50 kg.
 - Very mild pododermatitis
 - Both hind feet have circular alopecia at point of hock, around 3-4 mm diameter

- 9/26/19- look great
- 11/25/19= Very well furred on both feet, was good with exam
- 2/13/2020= unable to examine feet.
- 2/20/2020= Unable to examine feet. Super nervous. Mats around tail base and under tail. Need to anesthetize to clip mats, and then work on handling more.
- Clip mats next week under anesthesia, recheck feet 1 month- 2 months.

- **Recommendations**

- Exercise pen;
 - All rabbits need 4+ hours in exercise pen, and 2 rotations per week
 - **For the exercise room, only use the irradiated hay from Bio-Serv**

- **Rabbit feed**

- Completely discontinue all Kaytee brand hay
- Use only Oxbow hay in the housing room
 - Please, if all hay could be ordered online, that would be best case scenario
- All rabbits should have unlimited grass hay= timothy, orchard grass, meadow grass

Thanks very much,
Leslie

Hi all,
We did several rechecks in between. Here are the latest rechecks. Will need to do a few rechecks early- mid Nov/ Dec.

- Tex # 101
 - Weight 08/09/18= 4.10 kg, 07/19/18 = 4.16 kg, 4/11/19= 4.18 kg, 5/6/19 = 4.16 kg.
 - I had suspected some dental disease, will continue to monitor.
 - 5/19= Mild to moderate Pododermatitis
 - Left and right hind feet have alopecia on plantar surface and alopecia area around 6 mm at point of hock
 - Some mats inguinal
 - 9/26/19= Medium amount of fur, dirty feet, pencil sized areas of alopecia at both point of hocks and rectangular area alopecia adjacent
 - Recheck late Oct- early Nov
- Leo #102
 - Weight 08/09/18= 4.10 kg, weight 07/19/18= 4.22 kg, weight 4/12/19= 4.02 kg
 - Mild pododermatitis
 - 5/23/19= Much cleaner. Both hind feet clean and furred, alopecia remains, no scabs
 - 9/26/19- well furred feet, clean, thin fur on left hind
 - Recheck end Nov
- Jasper #104
 - Weight 08/09/18= 3.86 kg, weight 07/19/18 = 3.98 kg, weight 4/5/19 = 3.72 kg
 - Mild pododermatitis,
 - 5/19= Fur on feet is clean and fluffy
 - Left hind alopecia about 3 mm diameter on point of hock
 - Right hind alopecia around 6 mm diameter at point of hock
 - 9/26/19= well furred clean feet, tiny alopecia area point of both hocks
 - Recheck Nov- Dec
- Trixie #105
 - Weight 08/09/18= 4.90 kg, weight 07/19/18= 4.66 kg, weight 4/11/19= 4.92 kg
 - Mild – moderate pododermatitis
 - 5/23/19= Mats at tail, clipped. Left hind foot- fur is clean but thin, 3 mm alopecia area, right hind foot- fairly clean fur, small scab at point of hock, alopecia area larger than pencil eraser
 - 9/26/19- left hind has small amount alopecia and small scab at point of hock, right hind clean, mild alopecia
 - Recheck mid- end Nov
- Daisy #108

- Weight 08/09/18= 4.22 kg, weight 7/19/18= 4.28 kg, Weight 4/5/19= 4.04 kg
- Mild pododermatitis
 - Feet are clean and well furred, mild alopecia size of pencil eraser, no scabs, at point of hock
- Recheck in end Nov
- Wyatt Earp # 109
 - Weight 4/5/19= 3.36 kg
 - Mild pododermatitis
 - 5/19- Both hind feet have 3- 5 mm diameter circular alopecia lesions at points of hock
 - No scabs
 - 9/26/19- Left hind foot fur is dirty, mild alopecia less than diameter of pencil erase both sides.
 - Increase exercise and time in pen
 - Bathe well , especially left hind foot
 - Recheck Nov
- Doc Holliday # 110
 - Weight 4/5/19= 3.20 kg
 - Nervous- unable to check feet.
 - Continue- work on socializing to handling and exam
 - Recheck end Oct- mid Nov
- Johnny Ringo #111
 - Weight 4/5/19= 3.32 kg
 - Very mild pododermatitis
 - Both hind feet have circular alopecia at point of hock, around 3-4 mm diameter
 - 9/26/19- look great
 - Recheck Nov/ Dec.
- **Recommendations**
 - When the exercise pen is back up and running;
 - All rabbits need 4+ hours in exercise pen, and 2 rotations per week

Hi all,
Rabbit notes! Exams were April 5 and 12, and 2 rechecks today on Leo and Trixie. A few others will get rechecks in the next few weeks.

- Dixie # 106
 - Weight 8/10/18= 4.70 kg, 07/19/18= 4.66 kg, Weight 4/11/19= 4.80 kg
 - Mild Pododermatitis
 - Left hind foot= fur loss on plantar surface, pencil eraser size circular alopecia, no scabs
 - Right hind foot, alopecia on plantar surface, larger than pencil eraser size circular alopecia on point of hock, no scabs
 - Recheck June
 - Exercise pen when available
 - Increase timothy hay
- Leo #102
 - Weight 08/09/18= 4.10 kg, weight 07/19/18= 4.22 kg, weight 4/12/19= 4.02 kg
 - Mild pododermatitis
 - 4/12/19= Dirty fur on both hind feet, approx. 2 mm diameter alopecia areas on point of hock, no scabs
 - 5/23/19= Much cleaner. Both hind feet clean and furred, alopecia remains, no scabs
 - Recheck in about 2 months, July- Aug
- Trixie #105
 - Weight 08/09/18= 4.90 kg, weight 07/19/18= 4.66 kg, weight 4/11/19= 4.92 kg
 - Mild – moderate pododermatitis
 - 4/11/19= Fur is dirty around perineum and thighs, both hind feet have very dirty fur, left hind has a pencil eraser size area of alopecia at the point of hock.
 - 5/23/19= Mats at tail, clipped. Left hind foot- fur is clean but thin, 3 mm alopecia area, right hind foot- fairly clean fur, small scab at point of hock, alopecia area larger than pencil eraser
 - Recheck in June- May need anesthesia to clip down and wash fur on feet
- Tex # 101
 - Weight 08/09/18= 4.10 kg, 07/19/18 = 4.16 kg, 4/11/19= 4.18 kg, 5/6/19 = 4.16 kg.
 - Tex has had some weight loss but appears to be stable now.
 - I had suspected some dental disease, will continue to monitor.
 - Mild to moderate Pododermatitis
 - Left and right hind feet have alopecia on plantar surface and alopecia area around 6 mm at point of hock
 - Some mats inguinal
 - Recheck June

- Jasper #104
 - Weight 08/09/18= 386 kg, weight 07/19/18 = 3.98 kg, weight 4/5/19 = 3.72 kg
 - Mild pododermatitis, Fur on feet is clean and fluffy
 - Left hind alopecia about 3 mm diameter on point of hock
 - Right hind alopecia around 6 mm diameter at point of hock
 - Feet well furred
 - Recheck June
- Daisy #108
 - Weight 08/09/18= 4.22 kg, weight 7/19/18= 4.28 kg, Weight 4/5/19= 4.04 kg
 - Mild pododermatitis
 - Feet are clean and well furred, but Left hind has mild alopecia size of pencil eraser, no scabs, at point of hock
 - Right hind has alopecia in circular size approximately pencil eraser, no scab
 - Recheck in June
- Wyatt Earp # 109
 - Weight 4/5/19= 3.36 kg
 - Mild pododermatitis
 - Both hind feet have 3- 5 mm diameter circular alopecia lesions at points of hock
 - No scabs
 - Recheck June
- Doc Holliday # 110
 - Weight 4/5/19= 3.20 kg
 - Nervous- unable to check feet.
 - Plan- work on socializing to handling and exam
 - Recheck June to socialize
- Johnny Ringo #111
 - Weight 4/5/19= 3.32 kg
 - Very mild pododermatitis
 - Both hind feet have circular alopecia at point of hock, around 3-4 mm diameter
 - Recheck June
- **Recommendations**
 - When the exercise pen is back up and running;
 - All rabbits need 4+ hours in exercise pen, once or twice a week
 - For the exercise room, only use the irradiated hay from Bio-Serv
- **Rabbit feed**
 - Completely discontinue all Kaytee brand hay
 - Use only Oxbow hay in the housing room
 - Please, if all hay could be ordered online, that would be best case scenario
 - All rabbits should have unlimited grass hay= timothy, orchard grass, meadow grass

Thanks very much,
Leslie

Subject: RE: Rabbits - Updates from Sept 26, 2018

Hi all,

Rabbit notes from our last update! Exams were Sept 26, and rechecks are due again in the next few weeks.

- New rabbits
 - Doing well in rabbit room
 - [REDACTED] has started them in the exercise pens
 - He says they are very active in the pens
- Rabbit feed
 - Completely discontinue all Kaytee brand hay
 - Use only Oxbow hay in the housing room
 - Please, if all hay could be ordered online, that would be best case scenario
 - All rabbits should have unlimited grass hay= timothy, orchard grass, meadow grass
 - For the exercise room, only use the irradiated hay from Bio-Serv
- New horse barn non-slip mats for exercise room
 - Finally are manageable now that [REDACTED] has washed them
 - And [REDACTED] has cut the mats so they are easier to move as they are very heavy
 - Thanks [REDACTED] for all your work on them!
- Rabbit feet
 - Rechecked Sept 26, due for recheck in next few weeks
 - Overall there was good improvement
 - [REDACTED] has done very well with them
 - Briefly;
 - Dixie #106; dirty feet, some scabs alopecic areas, slightly improved. Would like more improvement with Dixie.
 - Tex #101- dirty feet, improved though because right foot has no scabs, and alopecia area is smaller than pencil erase. Left hind foot, still some scabs and redness, about size of pencil eraser area of alopecia. Would like more improvement with Tex.
 - Trixie #105 – Improved. Right hind foot- Clean, no scabs, no redness, pencil eraser size of alopecia at point of heel. Left foot, pencil eraser diameter size alopecia, but no scabs and slightly dirty.
 - Leo #102- Right hind foot mildly dirty, very small spot of alopecia, much smaller than pencil eraser size, left hind foot, clean, small area of alopecia at point of heel. Much improved.

Thanks very much,
Leslie

Follow Up Flag: Follow up
Flag Status: Flagged

Hi [REDACTED]
Hope all are well! Rabbit notes for today.

- Moving new rabbits to regular room
 - No sniffing or snuffling from the new rabbits
 - On Tues, they will have been here for 5 weeks
 - I've talked with [REDACTED] about moving the new rabbits into the regular room on Tuesday Sept 4
 - Watch for any issues
- New racks
 - Arriving Mon Sept 10
 - Once cleaned and set up, let's try them out ASAP
- Rabbit feed
 - Completely discontinue all Kaytee brand hay
 - Use only Oxbow hay in the housing room
 - Oxbow has; timothy, orchard grass, meadow grass, mixtures and alfalfa
 - Please, if all hay could be ordered online, that would be best case scenario
 - For the exercise room, only use the irradiated hay from Bio-Serv
- New rabbits
 - One is still a little jumpy
 - Work on continuing to socialize to handling
 - Do **not** recommend having the new rabbits go into the exercise pen until they are easily picked up and "caught"
 - New rabbits can have 3-4 handfuls of timothy hay/ day
 - If we got some alfalfa hay from Oxbow, they could have half a handful per day as well. Just a little, and only for the new rabbits
- New horse barn non-slip mats for exercise room
 - Still smell like rubber
 - Waiting for the smell to dissipate
 - Thanks [REDACTED] for cleaning them!
- Rabbit feet
 - Rechecked yesterday
 - Overall there was good improvement
 - [REDACTED] has done very well with them

Attachments: Dixie 106 on 080918.pdf; Tex 101 on 080918.pdf; Leo 102 on 080918.pdf; Trixie 105 on 080918.pdf

Hi [REDACTED]
Rabbit foot rechecks from yesterday! Some progress, I'd like to see more progress though.

Briefly; Dixie #106 still #1 to watch for; dirty feet, scabbed, and has gained weight. Tex #101- dirty feet, also left hind leg on the lateral (outside) lower leg and thigh, but scabs slightly improved. Leo #102- better left hind, worse right hind. And Trixie #105 - not scabbed but alopecia bigger than pencil eraser diameter (~ 5 mm). Attached are their exam maps. [REDACTED] will apply topical silvadene to their feet as possible.

Jasper is about the same, and Daisy better, no scabs but still alopecia and gained weight.

The females have gained weight and the males have lost a little weight. I think [REDACTED] ordered more nonslip horse mats for the exercise room. [REDACTED] has been keeping them in there longer.

[REDACTED] noticed that the one brand of hay isn't as long-stem as the other, and falls through the holes so the rabbits can't eat it all. For now they will need quite a bit of hay to make up for the hay that falls through the holes and isn't accessible. When the new hay arrives, they can be switched to that hay instead. [REDACTED] has already ordered more Oxbow hay! Thanks all.

The new rabbits #109, 110, 111 seem to be settling in. They are now getting 2 handfuls of timothy hay per day. When the alfalfa hay comes in, they can each have 1 handful of alfalfa per day in addition to their timothy hay. Same amount of pellets.

Thanks,
Leslie

- Dixie #106
 - Weight 8/10/18= 4.70 kg, 07/19/18= 4.66 kg
 - Moderate Pododermatitis
 - Left hind and right hind - have scabs at point of heel, alopecia and erythema (reddened skin from irritation) and also alopecia and erythema on plantar surface both hind feet
 - Feet – not well furred, fur is dirty but no mats
 - Recheck 2- 4 weeks, increase time in exercise pen
 - Increase timothy hay given
- Tex #101
 - Weight 08/09/18= 4.10 kg, 07/19/18 = 4.16 kg
 - Tex has had some weight loss over about 7 months
 - DDX- suspect dental disease
 - We can increase his hay and add alfalfa hay
 - We can't diagnose or address dental disease without radiographs
 - Mild to moderate Pododermatitis
 - LH has alopecia on plantar surface and alopecia area around 4 mm at point of hock

- RH has scabs at point of hock, around 4 mm diameter area of alopecia
 - Fur is dirty, but not matted
- Some mats near tail base
- Dirty fur on lateral (outside) side of left hind foot and leg
- Recheck about 2- 4 weeks
- Increase time in exercise pen
- Increase timothy hay
- Leo #102
 - Weight 08/09/18= 4.10 kg, weight 07/19/18= 4.22 kg
 - Mild to moderate pododermatitis
 - Left hind foot- no scabs, but pink, and alopecia on point of hock
 - Right hind foot = dirty, no mats, and alopecia increased to 5 mm diameter on point of hock, no scab
- Trixie #105
 - Weight 08/09/18= 4.90 kg, weight 07/19/18= 4.66 kg
 - Mild pododermatitis
 - Left hind alopecia at point of hock and plantar surface, around 5+ mm diameter
 - Right hind alopecia at plantar surface, and alopecia around 5+ mm diameter at point of hock
- Jasper #104
 - Weight 08/09/18= 3.86 kg, weight 07/19/18 = 3.98 kg
 - Mild pododermatitis
 - Left hind alopecia about 2 mm diameter on point of hock
 - Right hind alopecia around 3 mm diameter at point of hock
 - Feet well furred
- Daisy #108
 - Weight 08/09/18= 4.22 kg, weight 7/19/18= 4.28 kg
 - Mild pododermatitis
 - Feet are clean and well furred, but RH has mild alopecia around 2 mm diameter at point of hock

• Recommendations

- All rabbits need 4+ hours in exercise pen, once or twice a week
- Increase Oxbow timothy hay for all rabbits
- **Recheck all rabbits' feet in 2-4 weeks**
